Hess toy truck and racer 1988

Original cost: \$6.95 manufactured (Hong Kong): 500,000 manufactured (China): 500,000 This truck takes accessories to a new level! It's a transport truck carrying a frictionless race car. The car can be removed and played with separately. This is also the first truck to display the year on its license plate. This truck was made in both Hong Kong and China. Another variant is the gold tuna grill on both trucks. The box features the truck parked next to a Hess gas station with Christmas trees and mountains in the background. The bottom contains battery installation instructions and race car operating instructions. With an unparalleled reputation for outstanding quality in affordable pricing since 1964, each year's release of a new Hesse Toy Truck has become one of the biggest holiday gifts giving deliveries. So popular that they sell out every year, the following items appear for historical reference and are not available for sale. © 1996-2015, Amazon.com, Inc. or its subsidiaries ©2020 Walmart Stores, Inc. (October 2020) (Learn how and when to remove this template message) Every year, the model changes to a new design and older models are considered collectibles. [1] These toys have been popular American Christmas gift traditions for over 50 years. [2] [3] Since 1964, Hess gas stations have sold aton trucks every year around the Christmas season. [4] History In 1964, The Hess Company began making small copies of their trucks to give customers as a thank you for their business. The first tanker truck sold for \$1.39 in 1964 and is now worth nearly \$2,500. [5] [6] The 2014 model was the final Hess truck sold at their gas stations before moving to Speedway. The toy truck business continued after the sale of their retail unit at Speedway. [7] Since 2015, Hesse toy trucks have been put up for sale through their online website, while Speedway itself has started selling toy trucks to all their locations at once, including the heritage site in the Midwest United States that has never been part of Hess. [8] Standards The 2006 version of the Hess Toy Truck There have been several instances in which non-truck vehicles were sold under the Hess toy truck emblem:[9][unreliable 1966 tanker boat, based on the Hess Voyager 1993 Patrol Car 2001 Helicopter by Motorcycle and Cruiser 2004 SUV with Motorcycles: Note: This marks the 40th anniversary of the Hess Toy Truck 2009 Race Car with Racer 2012 Helicopter and Rescue Annual Holiday Releases These models have been released annually for almost every holiday season since 1964. These are the following: 1964-1965 Tanker Trailer 1966 Tanker Tanker 1967 Tanker Truck Note: This model included a red velvet screen stand instead of a bottom of the box. [10] 1968-1969 Tanker truck Note: Most 1969 trucks were sealed with office being in Woodbridge NJ instead of Perth Amboy, making 1969 trucks more valuable. [10] 1970-1971 Fire Truck Note: They ran out of regular boxes in 1971 so they had to take clear white boxes and put the greeting sticker of a time on top. These boxes are much rarer, but beware, there are many counterfeits. Another thing is that there was a prototype made in 1970 in the US. These trucks are sealed, Made in USA at the bottom. [10] 1972 Tanker Truck Note: This was a slightly redesigned model from 1968-69. 1973 No truck produced due to gas shortages. 1974 Tanker Truck Note: This marks the 10th anniversary of the Hess toy truck. This is the same model as the 1972 version, with the exception of a care label on the box, stating that there were small parts. The Child Safety Act passed in 1973 did so every toy with small pieces had to have a label. Also during 1974, there were a bunch of remaining 1970s trucks, so they put on labels and resold some of them as well. 1975-1976 Box trailer note: The 1975 model had solid green barrels. The 1976 model had the HESS logo on the barrels. Also the 1975 truck had an American prototype like 1970. 1977 Fuel Oil Tanker 1978 Fuel Oil Tanker Note: Slightly different adhesive sticker design on the back. 1979 No truck produced due to gas shortages in 1980 Training Van Note: These were intended to come out in 1978, but were cancelled for that year. 1981 No truck produced due to gas shortages 1982-1983 First Hess truck note: Some 1983s had a black switch om bottom. 1984 fuel oil tanker with bank note: This marks the 20th anniversary of hesse toy truck 1985 First Hess Truck Bank 1986 Red fire truck 1987 truck with barrels 1988 truck with racer 1989 white fire truck Bank Note: Similar to 1986 Hess fire truck.
